NEVADA CITY AIDS MINING ASSN. DRIVE

GOLD PANNERS IN STEEPHOLLOW FED BY RESCUERS

Four Horses Hitched to Sled Loaded With Provisions Reaches Hungry Camp

THIRTY THREE SUCCORED

Salvation Army Captain Leads Expedition; "Lon" Ledue Sees it Through

Thirty three gold panners, men women and children, were saved from hunger Wednesday when a relief expedition headed by Capt. G. Murray of the Grass Valley Salvation Army headquarters, reached Steephollow creek canyon at 3 p m. in the afternoon.

Provisions drawn by four horses hitched to a big sled, driven and owned by "Lon" LeDuc, were hauled over the nine miles of rough going over snow varying from three to six feet in depth and under the exortations of the driver the four big horses never faultered in their task.

The expedition was the answer of the Salvation Army to appeals telephoned Grass Valley from Dutch Flat by a party of Steephollow men, who had broken a path through the snow to Dutch Flat on Tuesday, hoping to bring succor to their loved ones.

Provisions, clothing, medicines and other supplies were carried through without an upset or halt in the gruelling trip.

Twenty of the men and women were located at Steephollow Flat and thirteen at Little York a mile below that camp. There were 13 women and children among the group, nine married men and eleven single men.

They were found to be plentifully supplied with fuel, and as compared with Nevada City and Grass Valley with an abundance of water. Even they, however, were constantly obliged to patrol the ditch that supplied their camps. They reported an average of 50 cents per day earnings each from their pannings.

As soon as the roads were covered with snow drifts, their ancient tin lizzies refused to function, thus they became snow bound.

WATER SHORTAGE CLOSES SIX MINES

Due to the dangerously low water situation in Grass Valley and Nevada City, the North Star, Empire and Pennsylvania mines o fthe former city closed down their mining operations Tuesday night. Only pump men and hoist men are retained on the job. The layoff is temporary and the mine is expected to reopen as soon as there is enough water to warrent it. The three mines are owned and operated by the Newmont Mining Company.

The primary use for water in the mines is to cool the air compressors.

The Brunswick mill, operated by the Idaho-Maryland Mines Company Ltd., also halted operations temporarily Tuesday evening.

Following suit in the Nevada City field, the Murchie mine closed down Wednesday evening due to the same water shortage and transportation difficulties. The Murchie is also owned and operated by the Newmont Mining Company. Work at the Hussey mine in Willow Valley has been halted by Tom Coan and Ellsworth Wood, who are now operating the mine.

Funeral Services Held For Mrs. Bessie Enos

Mrs. Bessie Enos, who passed away in her home in Grass Valley, January 21, was borne to rest in the Redmen's cemetery Wednesday, under direction of W. R. Jefford & Son. Mrs. Enos was 59 years of age and leaves her husband, Joseph Enos; a daughter, Mrs. Lucile Cleveland of Grass Valley; two sons, F. Donahue of Oakland, and Fred Langdon of Oakland; a sister, Mrs. Lulu Purdy of San Francisco; a brother, James P. Harris of Oakland.

WATER FAMINE END NEAR, SAYS WILL DURBROW

Seventy five men working days and most of the nights have succeeded in repairing the Snow Mountain and Cascade ditches to such an extent, that Manager Will Durbrow, of the N. I. D., declared last night that the worst of the water famine was over for both Nevada City and Grass Valley. He stated fn one place along the Cascade ditch a great tree had fallen, carrying away, or effectually blocking, eight boxes of flume. Along this section more than 100 trees big and little, loaded with snow, had blown down, but fortunately with few of them adjacent to the ditch.

"This is the worst storm we have had for many years," declared Manager Durbrow yesterday. "The heavy snow fall accompanied by wind, rapidly filled the ditches. By this evening we expect, and please emphasize that word, expect, because we can't tell what the night will bring, that repairs will be sufficently advanced to assure both cities of their necessary supply of water. We are now turning water down Canada Hill, and have not far to go to complete repairs on the Cascade ditch, which will relieve Nevada City needs.

THIRD DEATH IN PIONEER FAMILY IN SHORT TIME

Mrs. Mamie Walling Parsons passed away in Oakland Wednesday. She was the third member of the Nevada City pioneer family to pass away within a short time. On January 14, her brother, Marion Walling died in Oakland, California, while her sister, Mrs. Columbine E. Walling was called by death but a short time before. Her distinquished father, Judge J. M. Walling succumbed less than two years ago.

Mrs. Parsons spent most of her life in Nevada City and leaves a large circle of in imate friends to mourn her passing.

She is survived by two sons, R. W. and Theodore Arthur of San Francisco, and two brothers, George E. Walling of this city and Earl Walling of Bakersfield, and a sister, Mrs. William Maher of Oakland.

She was a prominent member of Laurel Parlor No. N. N. D. G. W. of Nevada City taking a prominent part in its activities, and was also a member of Neva Rebekah Lodge, I. O. O. F., of Nevada City and Ceanotha Council, Degree of Pocahontas of Grass Valley.

Funeral arrangements are in the hands of Holmes Funeral Home. The remains arrived in this city last night.

Stork Brings Son to Mr. And Mrs. James Erway

Mrs. James Samuel Erway of Pine street, this city, gave birth to a big husky baby boy at 3:30 Tuesday afternoon by means of a Cessarian operation, at the Jones Memorial Hospital in Grass Valley. Mother and son are both doing nicely under the care of Dr. Carl P. Jones.

The new addition to the Erway family has been named after his father, James Samuel Erway, Junior. James Junior is the second grandchild of Mr. George W. Erway of Commercial street, Nevada City. Eleven year old James Naucurvis has been the lone grandchild for a number of years.

LOOK OUT HERE COMES ANOTHER BIG STORM

Radio reports yesterday state that a new storm is coming down the coast. It is due here today propelled by a high wind.

Infant Son of Mr. and Mrs. Tucker is Called

The infant son of Mr. and Mrs. Eugene Tucker, eight days old, passed away yesterday morning in the Jones Memorial Hospital where he was born. Funeral services were held yesterday afternoon under direction of Holmes Funeral Home.

Campaign To Open For Membership Enrollment

Mining operators and business men of Grass Valley met Wednesday evening in the National Hotel and to a man approved of the determination of the California Mining Association to secure the repeal of the Corporation Securities Act, and substitute therefore the proposed California Securities Act.

Incidentally in response to F. A. Crampton's appeal for men and money to back the California Mining association, of which he is vice president, W. H. Griffith of the Nevada City Chamber of Commerce, was appointed to receive membership subscriptions in the organization. The money raised by membership dues will be handled by the Nevada County Chapter of the Mining Association. The dues are $25 per year for mining companies, $5 per year for individual, active members and $I per year for associate members.

Crampton stated that the new measure was backed financially by the manufacturers associations.

Sidney Norman, veteran mining journalist, and associated on the membership committee with Crampton, in a brief address described the iniquities of the Corporation Securities act, which has placed such heavy handicap upon mining in California, and told of the advantages that will be direved by all industries of the state under the proposed California Securities act. Among other things he stated that the chief curse of the Corporation Securities act, was to place the imputation of dishonesty upon any man who tried to start a mining or any other stock enterprise, in California.

DISTRICT ATTORNEY'S VIEW

District Attorney W. E. Wright declared that in his experience he found juries very unwilling to convict under provisions of the Corporation Securities act. He stated that it was easier to bring convictions under the ordinary laws against fraud than under the so-called blue sky law. He stated that under the laws against fraud investors were already amply protected.

G. J. Rector stated he was in entire sympathy with the plan to substitute for the Corporation Securities act, an act which would give mining an opportunity for legitimate development. In his opinion the Coropration Securities act had failed to fulfil the purposes for which it passed.

Mining enginders and operators present voiced the same opinion and declared their hearty support of the measures which will place the mining industry on a sound basis.

Sidney Norman then recited the words of Assemblyman Albert F. Ross of Redding, when in introducing the California Securities bill in the state legislature, he said:

HUGE EXPENSE ENTAILED

"The California Securities Act, when adopted by the Legislature, will repeal the present Corporate Securities Act, thus substituting what I believe to be the sanest, most equitable and most thoroughly protective measures ever presented in any western state. It will result in very material saving to the heavily-burdened taxpayers, a matter of the most vital importance at this time. Since 1917, when the present act was adopted, expense of administration has mounted from $26,000 to a maximum of $756,012 in 1931, an average of $229,847 since adoption and an average of $437,574 during the past seven years. In other words cost of administration has increased no less than thirty times since the act was adopted.

"The new act is designed to maintain the maximum degree of protection to the investing public, and at the sametime encourage the initiative of the state, so badly needed at this time. It removes most of the discretionary power exercised by an individual under the present law; demands the most rigid information under oath, regarding any publicly offered security; maintains the registration feature of dealers and salesmen; provides for secrecy in any hearings called to consider charges, thus preventing ruination of an honest man's efforts through publicity; exempts securities not offered publicly and closely defines "public offering;" exempts securities listed on all legally-organized stock exchanges of California, besides other large outside institutions of the kind, thus removing the present discrimination against our own securities; provides for plain marking of treasury and promotion stock, thus removing all necessity for the present practice of impounding securities; issues no permits, merely receipts, thus preventing dishonest men from using said permits as an implied endorsement by the state, a very prevalent practice under the present law; provides for a day in court for any man accused of infraction of the law in the county court of jurisdiction; calls upon the Attorney General and district attorneys of the state for their services in detecting and prosecuting infractions, as well as all other state agencies; establishes main offices in Sacramento, with branches in San Francisco and Los Angeles, and provides penalties in fine of not more than $2,000, or imprisonment for not more than two years, in the state penetentiary or county jail, for the first offence, and fine of not more than $5000, and imprisonment for not more than five years, or both, in the state penetentiary, for subsequent offences.

"The new act embraces the best features of the New York Martin Fraud Act, and Securities Act and Fraud Practices Act of Colorado, all of which are primarily based upon the British Companies Act, and all of which have proved effective over a period of many years. I am hopeful that the act will be promptly adopted, believing, as I do, that it will lead to far more enterprise in development of natural resources and other attractive opportunities of all kinds in California, at the same time surrounding the innocent investor with every possible safeguard."

High School Teams To Play Folsom Tonight

The Nevada City high school class A and B basketball teams will now tangle with the same class teams from Folsom tonight at Folsom. Both local teams are conceded slightly a fair chance to come home victorious. For the first time this season, the B team will enter a contest with an even chance to win according to the dopesters. Even though they are holding down the cellar position, the B boys are expected to pull through with a win due to their recent improvement of form and acquisition of basketball science.

In the last game at Roseville, even though losing by a 29 to 18 score, the lightweights showed improvement. Their handling of the ball was better and showed better team work than they have displayed heretofore. Individually, several of the players on this team show that they are capable of better basketball. With continued application and more practice, those players could be the nuceleous of a clever ball team Their coach, Bev Barron, has given them tip-off and out of bound plays with more than ordinary scoring possibilities. The functioning of these plays and their being carried out to a successful conclusion depends entirely upon the boys on the squad. If they give the game what it requires—faithful practice, they have a good chance to finish the season with a series of wins.

SUNNY CALIFORNIA

By H. B. W.

You all have heard of California,
But listen Bo, and we will warn yuh,
If you come now, or up till May,
You'd better bring your skis and sleigh.

NEVADA CO. ORE COLLECTION FOR CHICAGO FAIR

Mr. W. H. Griffiths, secretary of the Nevada City Chamber of Commerce, has just completed gathering a fine collection of gold ore specimens from the quartz mines in this county. Griffiths made the collection primarily as an exhibit to be sent to the World's Exposition at Chicago this spring.

Mines contributing to the collection are the Hoge, Murchie, Empress, Idaho-Maryland, North Star and Empire. The specimens are of the highest grade and some of them have a fine showing of free gold. The values of the six specimens, or picture rocks, runs well up into the hundreds of dollars.

Griffiths will ship the specimens in a few days to Los Angeles, where the California exhibit for the Chicago exposition will be gathered. From there the state exhibit will be sent when complete to Chicago.

ANOTHER RURAL DISTRICT TO JOIN NEVADA CITY HI.

It is expected that, following the recommendation of the county grand jury and the board of school directors, the county supervisors in the near future by formal resolution include the Oakland school district in the Nevada City high school district. It is stated on legal authority that the supervisors have this power whenever three families in any district outside the high school district send their children to the high school. Next year it is expected that Indian Flat and Willow Valley districts will also be included under this provision of the law.

As it stands now, except for the state allowance of $24 per year per pupil, the high school district receives nothing for the education of pupils from school districts outside the high school district.

SNOW BURIES CAR AND HANSON FAMILY WALKS

All this week the Hanson family has been having one tough time trying to get their Hudson sedan home. So far they have come only within about three quarters of a mile of their goal.

The Hanson family ranch is about two miles west of Nevada City on the old Downieville highway between here and Indian Flat. Starting from this city Monday, the Hansons plowed their car through the snow for about a quarter of a mile out of town and there had to leave it over night by the side of the road. Tuesday, with renewed vigor, they managed to move it about three quarters of a mile more and were again forced to leave it over night to the mercy of the elements. More weather happened Tuesday night. The result was that the Hansons have been unable to move their car any further toward home and a good garage. It is now snow bound for fair and with another foot of snow, one would never guess that the big mound side of the Indian Flat road marks the spot where the Hanson car lies buried.

There is another car that was stalled Tuesday night on the same road about a half mile out. It is stuck right in the middle of the road, making possible travel out of the question. It is stalled along side of the big rock boardering the right side of the road down on the bed rock and as yet the owners have not budged it from its resting place.

MAIL TO NEVADA CITY IS DELAYED WITHOUT NEED

U. S. Mails Are Held up While Tiny Engines Butt Huge Snow Bank Blockade

MAILS HELD UP 24 HOURS

Narrow Gauge Official Hangs Up Phone When Postmaster Scadden Protests

Tuesday night's Wednesday morning and afternoon's mail, and yesterday morning's mail all arrived at the Nevada City Postoffice yesterday morning at 10 o'clock—and by truck.

The protests of Postmaster Scadden, against the unnecessary delay, failed to register with the Manager of the Nevada County Narrow Gauge Railway.

Narrow gauge she is, and by heck, narrow gauge she'll stay!

That's the attitude of the narrow gauge offcials, who put the little engines to butting their way through snow drifts. As for the dear peepul who wanted their mail—be hanged to them.

In fact, while Postmaster Scadden was telephoning the narrow gauge manager, the latter hung up on him. Then the postmaster called up the U. S. Superintendent of mails in San Francisco and registered a real complaint regarding the delayed mails. If the manager of the narrow gauge could send the mails by truck yesterday, why couldn't he do it before? But no siree! A truck might cost some money and Uncle Sam's mails can wait, you betcha, by heck. And there you are.

There were of course, plenty of alibis for the engine, for the railway, and for everybody concerned in holding up the mail service. The engine couldn't get water and another engine had to haul the water to where the stalled engine was. The wrath of God had sent such a snow storm that the ancient contraptions that pulled the mail bags simply could not bust through. There was this and there was that. Anyway Nevada City folks and the people in the mining communities miles away in the hills could jolly well wait, while the narrow gauge wiped its brow and rammed the snow drifts ad finitum to save five dollars in truck hire.

IDAHO MARYLAND BUSY IN PAY ORE

Reports of a new discovery in the Idaho Maryland mine at Grass Valley about a month ago, has greatly enlarged the known ore bodies of this splendid producer.

This mine has adopted the policy of raising from the lowest, or 1950 foot level, from which drifts opened up a strong parallel ledge some four years ago.

Recently such upraises reached the 1,300 level and at that point the upward continuation of the ledge disclosed 16 feet of high-grade milling ore. This would seem to confirm the theory formed at the time of the 1,950-foot discovery that the new oreshoot extends to or near the surface. The upraise on the 1,000-foot lateral oreshoot now extends 600 feet and every foot of it is reported in pay ore.

This property made all their improvements during good weather weather and at this time the mine and mill are running steadily. They are not hampered for lack of water and while other mines are losing a shift now and then in the worst weather from different causes this property is able to continue to run steadily.

At present the company is busily engaged in drifting and raising at the different levels in the mine.

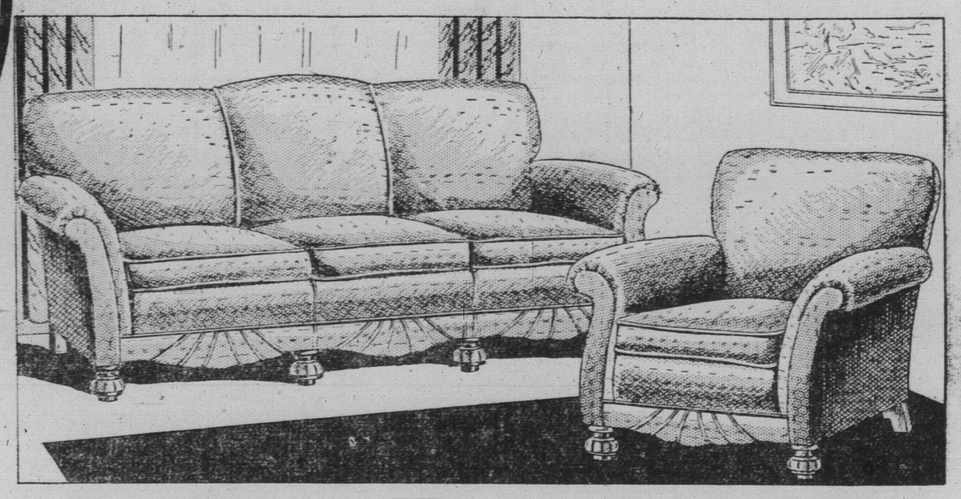
There are about 200 men employed at the property.

Albert Crase, a successful mining man, is general superintendent of the Idaho Maryland.

WARDS February SALES

Starts Thursday, January 28th!

DEPENDABLE MERCHANDISE . . . THRIFT PRICES



Inner Spring MATTRESS

Extra fine 169-coil Spring Cushion Mattress filled with 28 lbs. of felted and compressed cotton linters. Good damask covering. Roll edge. Compare it with others selling as high as $14.95!

$9.95

Helical-Tied COIL SPRING

You can depend on this 99-coil double deck Spring, helical tied! It's one of the best modern Springs now sold. Fits either straight or bow end beds. Finished green enamel.

$7.95

Priced Exceptionally Low for this Sale!

LIVINGROOM SUITE

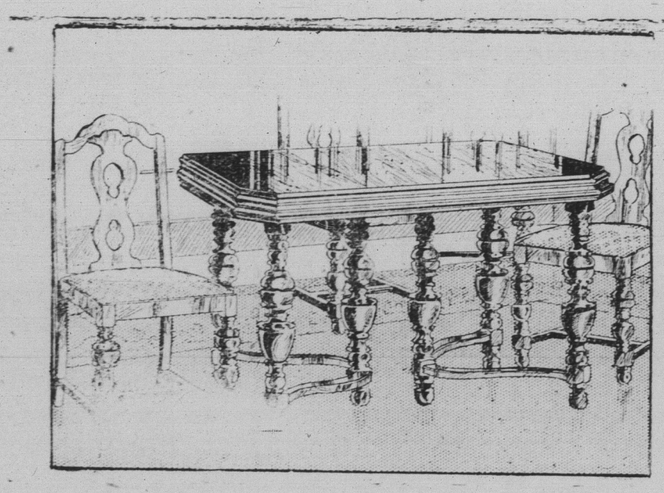
One of the most outstanding values in this truly remarkable sale of Home Furnishings! Both Davenport and Club Chair are generously sized. Frames of seasoned hardwood, double dowelled and hot glued. Covered all over, including reverse cushions, in high grade homespun tapestry. **Choice of green or rust.** A quality two-piece Suite through and through—from its sturdy construction to the careful tailoring that stamps it at once "expensive."

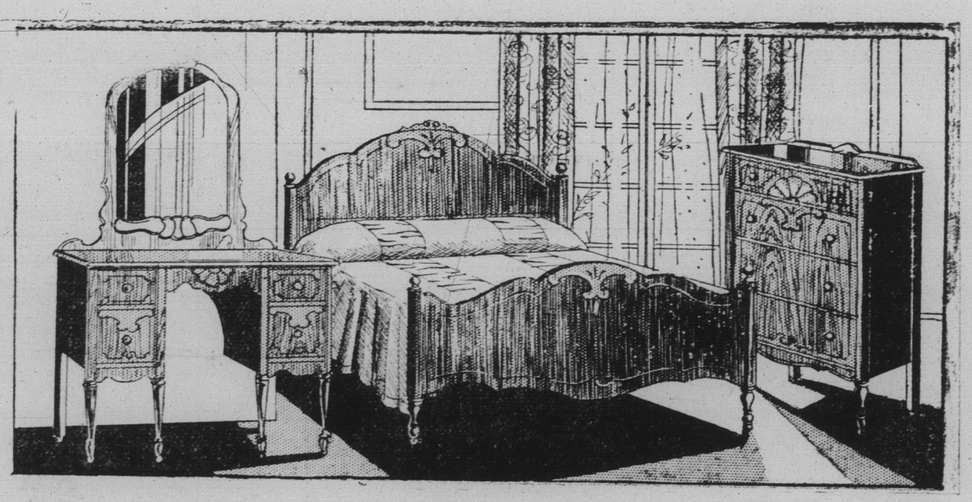
39.75

21x27 inch PILLOWS

The best for rest and comfort you ever had! **Selected duck and hen feathers; also duck and goose feathers.** Covering of first grade feather-proof ticking. Far below regular price!

98c





At a Remarkable Saving!

DINETTE

Called a "Dinette" because it is purposely designed for the small dining room. Extension table **(full length 36 x 64 inches)** and 4 chairs veneered in choice Walnut on hardwood. High grade construction. Chair seats covered in fine repp. Note specially the heavy, well-proportioned legs on each piece!

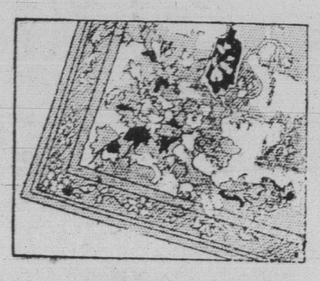
$27.75

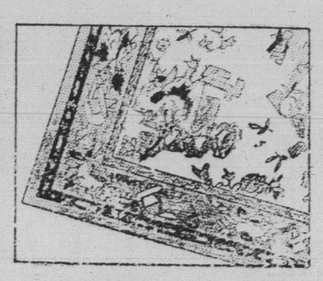
More Proof that Ward's Lead in Values!

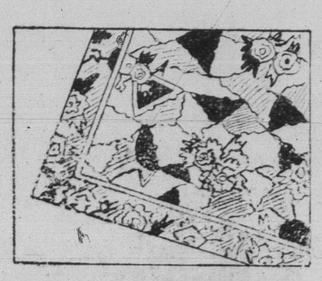
BEDROOM SUITE

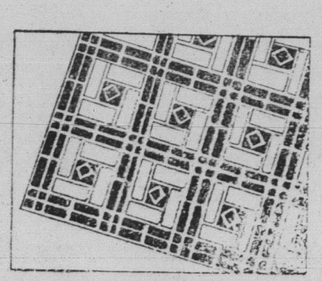
Here is another February Sale value triumph! . . . This specially beautiful Suite comes near to being the finest bargain of them all! Handsomely designed and excellently made, it comprises **a panel bed, chest, and choice of dresser or French vanity;** or, if you wish, choose the poster bed and Hollywood vanity at a slightly higher cost. Each piece finely veneered in Walnut on hardwood and polished at an exquisite finish.

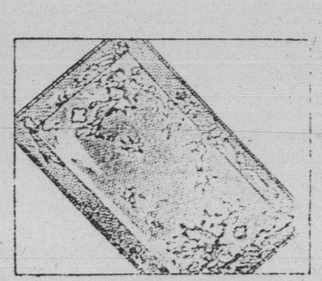
$34.75











$18.95

9x12 Axminsters

Choose from a distinctive variety of Persian and floral designs. Quality woven Rugs very much reduced.

$24.95

9 x 12 Fringed Axminsters

Fine Chinese and Persian Patterns with beautiful high-lighted grounds and effective borders. . . . . Colors through to the back. Rich colorings! Special offer!

$3.98

Felt Base Rugs

Light weight—long wearing. Handsome designs. Easy to keep clean. SIZE: 9 x 12. They're bound to go quickly!

25c

Per Foot

Felt Base Yard Goods

Extra heavy for longer service. 6-ft. wide. Fine selection of patterns. Buy real quality at this unusual price!

$1.49

27 x 50 Axminsters

A really fine collection at a genuine saving. Include fringed and non-slip. Luxurious to the tread. A super sale value!

HONOR ROLL OF N. C. HIGH SCHOOL

Principal H. J. Kjorlie yesterday announced that during the first half year the average daily attendance at the high school was 194, with total registration to date 217. Actual daily attendance now is 203.

Both grammar and high schools will not reopen until next Monday morning.

Principal Kjorlie gave out the list of those on the honor roll of perfect attendance, and those with absence of one day or less. The roll follows:

PERFECT ATTENDANCE

Angiolini Alaria.
Amelio Angelini.
Helen Arbogast.
Joe Cicogni.
Una Coughlan.
Lionel T. Doyle.
Edna Eicher.
Bonnie B. Blind.
Beyrl Godfrey.
Sam Hooper.
Phyllis Horn.
Irma Keller.
Alice Ohanneslan.
Chester Peterson.
Margaret Phariss.
Albert Pratti.
Ferne Rockefeller.
Hazel Smart.
Floyd Stenger.
Walter Warnecke.
Ralph Watters.
Margery Williams.
Nathelle Worthley.
Dorothy Worthley.
Murray Young.

ABSENT ONE DAY OR LESS

Warren Chapman.
Herman Clendenen.
Harry Davey.
Arthur Elliott.
John Graham.
Roy Granholm.
Violet Greenaway.
Rachel Hoffman.
Gerald Hogan.
Merle Horwege.
Oral Keller.
Margery Odgers.
Ralph Pierce.
Roman Royznski.

Alberta Watters.
Gus Wasley.
Tom Widauf.
Phyllis Williams.

Mining Assn. To Meet In Grass Valley Jan 28

The Mining Association of California will meet tomorrow evening, Saturday, at the Bret Hart Inn, in Grass Valley. A membership campaign, it is understood will shortly be launched in that city.

BIG JOB FOR RATTLER

COLUSA—(UP)— The strange spectacle of a rattlesnake in the act of swallowing a squirrel with a body larger than the snake's, was reported by Floyd Buffum, local bank employee.

WORK STARTS ON TOM HALL MINE

After almost three months of preparity work, the new leasers of the Tom Hall gravel mine in Birchville Dal Moffatt, J. H. DeSmidt and P. E. DeSmidt, have put the property in shape to do ground sluicing as soon as the water supply permits. The mine is located about a half mile north east of Birchville and is but fifteen miles north of Nevada City, off the Downieville highway.

Of the 8.55 acres of virgin gravel in the property, Tom Hall, the owner, has worked less than an acre in the past forty years that he has been there. During that period, Hall has taken thousands of dollars from the gravel.

In depth the gravel ranges from 70 feet to about 8 feet and is semi-cemented. Moffatt engineer in charge of operations, has worked on and inspected quite a number of gravel mines in northern California. Of the Hall property, he says it is one of the most promising that he has seen. The overburden up to the grass roots pays an astonishing figure per cubic yard. Hall himself offered to bet Moffatt $20 to $1 that he could not pick a panful of gravel from the property that would not pan at least one color. His canny Scotch instinct coming to the fore and saving him a dollar, Moffatt refused the bet and later found that most panfuls taken show a streak of color that seems almost unbelievable.

The gold is of the flake type and

LEGAL NOTICES

No. 6101

Notice of Sheriff's Sale Under Execution

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.

RETAILERS CREDIT ASSOCIATION OF SACRAMENTO, A CORPORTATION, PLAINTIFF, VS. CHAS. THOMPSON, DEFENDANT.

By virtue of an Execution issued out of the Superior Court of the State of California, in and for the County of Nevada, wherein Retailers Credit Association of Sacramento, a Corporation is Plaintiff and Charles Thompson is defendant.

Upon a Judgment rendered on the 3rd. day of January 1933 for the sum of One Thousand One Hundred and Fifty dollars and ninety-four cents, ($1,150.94), with interest thereon at the rate of 7 per cent per annum from the date of said judgment till paid, together with Twenty-Four dollars and Seventy-Five cents, ($24.75), costs and disbursements at the date of said judgement and clerks accruing costs of $1.00 I have this day levied upon all the right, title, estate and interest of Charles Thompson, defendant, as aforesaid in and to the following described real property, to wit:

All that certain property situate lying and being in the County of Nevada, State of California, and more particularly described as follows:

Lot 11 (Eleven) of Section Thirty-one (31), Township Sixteen (16) North, Range Ten (10) East, Mount Diablo Base and Meridian, containing fourteen and 35-100 (14.35) acres, more or less.

ALSO, a ¼ interest in Lot 13-Lot 5 and South half of Lot 9 in the North part of Sec. 6, Twp. 15 N. Range 10 E., M. D. M. known as the Colorado Mining Claim about 80 acres, more or less. Recorded in Vol. 300 page 208 in Nevada County, California.

Also, about the center of SE¼ of Sec. 31, Twp. 16 N., Range 10 E., M. D. M. known as the Ajaz claim bounded on the North by Lot 64-of You Bet Mining Co. on the East by Lot 69 of You Bet Mining Co. & Lot 11-C. P. R. R. Co. & on the West & South by Lot 60 You Bet Mining Co. About 32 acres, more or less. Recorded in Vol. 30 Page 174 Nevada County, California. And Lot 16 & the North half of Lot 9 in the North part of Sec. 6, Twp. 15 N., Range 10 E., M. D. M. About 20 acres more or less. Known as the Arizona Claim. Recorded in Volume 30 page 197, Nevada County, California.

And a ¼ interest in Lot 13-Lot 5 & South half of Lot 9 in the North part of Sec. 6, Twp. 15 N., Range 10 E., M. D. M. About 80 acres more or less known as the Colorado Mining Claim. Recorded in Vol. 30 page 208 Nevada County, Calif.

Also, All those certain lots, pieces or parcels of land and mining claims situate in the County of Nevada, State of California, and more particularly described as follows, to wit:

The Old Home Placer Mining Claim, as the same is more fully described in the notice of location thereof by Bert O. Bollinger, dated December 7, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at page 186.

The Mint Placer Mining Claim, as the same is more fully described in the notice of location thereof by Bert Bollinger, dated February 14, 1931, recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims at page 206.

The Jumbo Placer Mining Claim, as the same is more fully described in the notice of location thereof by Bert Bollinger and Irma Bollinger, dated February 16, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at page 213 et seq.

Gold Dollar Quartz Mining Claim, as the same is more fully described in the notice of location thereof by B. O. Bollinger and R. A. Chipman, dated May 20, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at page 257.

Gold Dollar No. 1 Quartz Mining Claim, as the same is more fully described in the notice of location thereof by Bert O. Bollinger and R. A. Chipman, dated May 20, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 ,of Mining Claims, at pages 256 et seq.

Old Glory Quartz Mining Claim, as the same is more fully described in the notice of location-thereof by Bert O. Bollinger and R. A. Chipman, dated June 4, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30, of Mining Claims, at pages 255 et seq.

Old Glory No. 1 Quartz Mining Claim, as the same is more fully described in the notice of location thereof by B. O. Bollinger, Irma Bollinger and Ralph W. Cleary, dated June 4, 1931, and recorded in the office of the County Recorder of said County of Nevada, in Book 30 of Mining Claims, at pages 261 et seq.

Midget Placer Mining Claim, as the same is more fully described in the notice of location thereof by Ralph W. Cleary and Grace Cleary dated Dec. 21, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 193 et seq.

Wedge Placer Mining Claim, as the same is more fully described in the notice of location thereof by George H. Cleary, dated December 19, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 177 et seq.

California Placer Mine, as the same is more fully described in the notice of location thereof by Ralph W. Cleary, dated November 19, 1930, and recorded in the office of the County Recorder of said county of Nevada in Book 30 of Mining Claims, at page 167.

Tom Thumb Placer Mining Claim as the same is more fully described in the notice of location thereof by Ralph W. Cleary, and Grace Cleary, dated January 20, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 194 et seq.

Wisconsin Surprise Placer Mining Claim, as the same is more fully described in the notice of location thereof by Ralph W. Cleary and Grace Cleary, dated December 30, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 172 et seq.

The Arrowhead Placer Mining Claim, as the same is more fully described in the notice of location thereof by Ralph W. Cleary, George H. Cleary and Hugh M. Clendenen, dated December 30, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at page 185.

An undivided two-thirds interest in and to Opal Placer Mining Claim as the same is more fully described in the notice of location thereof by J. F. Ryan, H. N. March and Ralph W. Cleary, dated February 3, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims at pages 208 et seq.

Also all right, title and interest of said parties in and to the following sections and portions of sections to wit:

All of Section 25 in township 16 north of range 9 east, Mount Diablo Base and Meridian;

All of Section 30 and 31, in Township 16 North of Range 10 East, Mount Diablo Base and Meridian;

All of the South West quarter of Section 32 in Township 16 North of Range 10 East, Mount Diablo Base and Meridian;

All of the North West quarter of Section 32 in Township 16 North of Range 10 East, Mount Diablo Base and Meridian excepting therefrom Lot 8 of the South West quarter of said Section 29;

All of the North one-half of Section 6 in Township 15 North of Range 10 East, Mount Diablo Base and Meridian;

Also all lands situate within one-fourth of a mile of any lands of said parties and-or of You Bet Mining Company, a corporation, other than said Lots 1, 2 and 8 aforesaid, and the South East quarter of said section 32.

ALSO, an Undivided one-fourth interest in Lot 5, South half of Lot 9, Lot 13, in the North part of Section 6, Township 15 North, Range 10 East, M. D. M. known as the Colorado Claim of about 80 acres, more or less.

ALSO, An undivided one-fourth interest in Lot 5, South half of Lot 9, Lot 13, in the North part of Section 6, Township 15 North, Range 10 East, M. D. M. known as the Colorado Claim of about 80 acres, more or less.

Public Notice is hereby given that I will on Friday, the 10th day of February, 1933, at 11 o'clock A. M. of said day in front of the Court House door, in the City of Nevada, County of Nevada, State of California, sell at PUBLIC AUCTION for cash, lawful money of the United States, all the right, title, claim and interest of the above named defendant, of, in and to the above described property or so much thereof as may be necessary to satisfy said Judgment with costs, etc. to the highest and best bidder for cash, lawful money of the United States.

Dated January 19, 1933.

NOTICE OF APPLICATION TO APPROPRIATE WATER

Application 7302

Notice is hereby given, That Relief Hill Mining Co., by C. E. Clark, Manager, N. Bloomfield, California, has under the date of June 23, 1932, applied to the Division of Water Resources, Department of Public Works, State of California, for a permit to appropriate unappropriated water, subject to existing rights.

Description of Project

Water to be appropriated from North Fork Poorman's Creek, tributary to South Fork Yuba River, county of Nevada.

Amount applied for: 50 cubic feet per second.

Diversion season named: January 1st to December 31st of each season.

Water to be used for mining purposes.

Point of diversion within SW¼ SE¼ of Sec. 9, T. 18 N., R. 11 E., M. D. B. & M.

Place of use described: Within NW¼ of Sec. 9 and SW¼ of Sec. 4, T. 17 N., R. 10 E., M. D. B. & M., as shown on map filed with Division of Water Resources.

Water will be returned to South Fork Yuba River within SW¼ of SW¼ of Sec. 9, T. 17 N., R. 10 E., M. D. B. & M.

Relative to Protests

Blanks upon which to submit protests will be supplied free upon request by the Division of Water Resources.

Any person desiring to protest against the granting of such permit shall within sixty days from date hereof, file with the Division of Water Resources, Sacramento, California, a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the application and shall contain the following information:

(1) Statement of the injury which would result to protestant from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use and of the point of diversion of the water.

A copy of the protest should be sent to the applicant and this office notified that the same has been done.

EDWARD HYATT,
State Engineer.

Dated: Sacramento, California, December 23, 1932. J6-4t

THE FARM

Expectations are for better grain prices in 1933, unless production is heavily increased. The winter wheat crop is forecast at 400,000,000 bushels, smallest sowing since 1923. The cotton crop is expected to total 24,000,000 bales, smallest in 5 years.

Heavy engineering construction contracts for the last week of year rose to $38,329,000, a weekly figure surpassed but twice during 1932.

Tuesday morning Mrs. James Erway of this city was taken to the Jones Memorial Hospital in Grass Valley.

Yuba River Country

By J. L. WOLFF

Yuba River Canyon Country Bulletin No. 47. Grass Valley California Chamber of Commerce.

At first miners in the Sierra were content to carry their packs on their shoulders as they stumbled alongside waters of canyons. Then came the pack horses, finally the stages. To speed up transportation of mails between California and the East, the Pony Express was started. And eventually stages swayed along with their cargoes across the Sierra, the Nevada Desert, the Rocky Mountains and along the Platte River. But right from the start of the '50s there had been a demand for a railroad to connect the oceans—and this demand became ever more insistant. The miner, ever ready with ridicule, quickly turned on the stages.

Mr. E. A. Wiltsec has a photostatic copy of a letter sent from Grizzly Bear House, which was a formerly between Auburn and Forest Hill. Showing the picture of a mule stage it is imprinted PUTT'S OVERLAND ENVELOPE with the following above the space for address: "This little institution is to be forwarded to its place of destination by Uncle Sam's Great Mule Railroad, and is expected to arrive inside of schedule time—provided the cars don't get Stuck In The Mud, nor the Locomotive run out of grass! WE WANT A DIFFERENT RAILROAD." To the left of the address space was "Mules warranted Kind, Poor, Affectionate and devoted to the cause." While to the right—"Hurray for informal improvements Nothing like it; Go in, Sammy! At the bottom of th eenvelope ran the line—"OVERLAND BY UNCLE SAMUEL'S CELEBRATED MULE RAILROAD LINE—Established in 1858." But the sender of this particular letter in 1860 took no chances. He addressed it to Mr. Cyrus Hills, Ea. Northport, Maine—and added: "VIA PANAMA."

Printed on the back of the envelope in red ink was:

"The Pacific Railroad.

"Air—Villikins and his Dinah.

"Say, how would you fancy a trip overland, By Samuel's railroad, exceedingly grand, With mule locomotives for passenger trains, and kettles for cooking your beans on the plains?

Chorus—Ta ral lal, lu ral etc.

"The road o'er the mountains in winter is wet. And that on the Desert is bilious, "YOU BET."

The bottom drops out, and the vehicle in, So much for the efforts of old Granny Gwin.

"When grass won't afford it, they unhitch the team, and camp by the road to recruit up the stream.

The tar-bucket, silent, would say, could it speak, "Oh, Railroad Democracy, we're sprung a leak!"

"To scare off the wolves, when they howl on the track, the brave engineer hits the leaders a crack.

The hungry conductor commences to pray, When off goes the whiplash, and . . . is to pay.

"They turn out their engines to rest and to feed, The Injuns then muster and raise a stampede,

And away goes the railroad, no person knows where, Now that is tremendously grand, I declare.

"They ferry the rivers wherever they cross, In case of sea-sickness, knock down a lame hoss.

The mail agent vomits and off goes his hat, And with it the mail tumbles into the Platte.

"By this institution they'll carry our treeps, And ladies, providing they go without heeps,

Agree not to meddle with Mormon affairs, Or advocate Brigham's production of heirs.

"Oh, Sammy, Oh, Sammy you know you're done wrong, To build a mule railroad, so wonderful long.

During the worst of the snow the past few days two local dairies have been delivering their milk by sleighs.

HOW DID YOU GREET THE FIRST SNOW?

Banish the dread of **"COLD PEAK"** *weather with carefree* **CONTROLLED HEAT**

ONCE banish heating cares and you will have no dread of winter.

Change to Controlled gas heating and be through for all time with the fuss and muss of fire tending. Then every day, all the day and half the night if you wish, every room in your home can be kept at "Comfort Zone" warmth. Just the turn of a valve, pressure on an electric button, or touch of an automatic thermostat gives you clean, healthful heat in abundance.

Modern gas heating equipment for large homes or small has been developed to a high stage of efficiency and economical operation. Consult with gas heating specialists of this Company. Or perhaps you will want to see a local gas heating dealer and arrange for a modern gas heating system to meet the exact requirements of your home.

Natural Gas **will maintain this "Comfort Zone" 65° 71°** *at low cost*

CONTROLLED HEAT

With gas fuel you can have maximum heat instantly available and keep it regulated to any temperature desired. Controlled heat from gas heating equipment is possible by merely turning a valve or handle, by pressing a button to get high, low or medium heat, or by setting an electric thermostat to automatically maintain any desired temperature.

LOOKING UP

By S. G. RUBINOW

SACRAMENTO, Cal., Jan. 26.—(UP)—To those who still retain a sense of humor, and most Americans do, I want to recommend a most original and spicy book. Personally, I think it's the cleverest thing published yet.

The title of the book is "Oh. Yeah?" Despite its levity, a really serious strain runs through the little volumne and its quotations of famous men. Naturally, the economists and the economically-minded are quoted most.

I fthere is any one moral one could deduct after reading this book, it would be that we have too much economics and not enough business in the United States.

Too many theories, too many trends, too many forecasts, too many cycles, too many economic views; and not enough buying, selling, manufacturing, advertising, employment, banking, transportation, commerce, and all the other factors of a prosperous era.

Back of that, lies the though that possibly we have too many economists trying to run the government, an dnot quite enough real business men.

* * *

The old saying that what's wanted is more business in government and less government in business was never more true than it is today. Recently, I advocated in this column the need for a business dictator to run the country. My suggestion brought a number of replies from readers saying "Amen."

Take the controversey now raging in Congress over the banking measure introduced by Senator Glass. How, one would ask, in the light of th edebate going on, the filibustering, and the personal elements injected into the discussion, can a huge gathering like Congress come to any reasonable decision in the matter?

Consider the waste of money, time and energy dissipated in all legislative matters. Could a private business be run that way, and how long?

* * *

Take newspapers, for example. Newspapers are said to be run more efficiently, certainly with greater dispatch and decision, than any other type of business.

If a newspaper had to be operated on the time schedule of a congress or any other legislative body, it would be a year before its first edition came out.

Now, under our great system of popular democracy, the President says one thing, the vice-president says something else, and Congress takes a third view. Sometimes a forth viewpoint is injected into the problem, when Congress splits, and the House goes one way, and the Senate another way.

* * *

In one way, I believe the United States is not material enough. We still do too much hero worshiping. We are not enough success-minded. Many of us would rather have a chance to shake the hand of the President, so we could tell our grandchildren about it, than give the man an opportunity of working out our problems.

Like the sun-worshippers, of the past, we have become a race of hero-worshippers. And there's a new hero to worship every morning.

With hero-worship appear the inevitable slogans. To a lot of good Americans, slogans are as indispensable as oatmeal or porridge was to Oliver Twist. Thinking it over seriously, one doesn't know whether the situation is funny or tragic.

HOW MUCH WATER IS IN SNOW?

By EDWARD C. UREN

There has been considerable discussion and some misunderstanding concerning the amount of actual water in such snow as we have been recently having in Nevada City; that is, snow which has been piling up with an average temperature of about 35 degrees.

The old South Yuba Water Company used to consider that from 11 to 13 inches of snow was equivalent to an inch of water. This may be true in the high mountains but it certainly is far away from the facts here.

The writer, in order to make a fair test, carefully blocked out a square foot of the rather dry snow which fell Saturday and Sunday, including Sunday night. It was 13-one-half inches in depth and not waterlogged at the bottom.

This was placed in an open pan and allowed to melt, wih the result that this block of snow produced just 156 and one-half ounces of water, or 4.89 quarts. The weight of the water was 10 pounds 8 ounces, or 9.33 pounds to the cubic foot.

It is therefore eivdent that this 13 and one-half inches of snow was equivalent to a depth of 1.96 inches of water, and that 7 inches of snow makes an inch of water.

As the ordinary roof is constructed to withstand safely about 20 pounds to the square foot of surface, it may be considered that the limit of safety has not been exceeded until the depth of such a type of snow is greater than 24 inches.

THE PAY STREAK

By H. M. L.

Trot out the sleigh bells! One man has done it. Met him on the highway this morning with two heavy coated cayuses hitched to a sled, with bells attached to their hames—Some music! And did the nags prance and were they proud!

* * *

When San Francisco was burning after the earthquake, a good many years ago, the cry was "more dynamite!" For the last few days the cry in the Twin Cities has been—"More shovels." In fact a number of roofs have showed strain under the burden of snow. In Grass Valley ,the roof of one of the Diamond Match Company's buildnigs collapsed under its burden of snow. A part of the contents of the building was cement.

* * *

In some counties, grand juries are recommending a cut in the salaries of all peace officers. If the recommendations of these grand juries are carried out, later on other grand juries will be censuring peace officers who have accepted these cuts in pay, for laxity, graft, or what not. To employ or to elect a peace officer, and expect him to rear and educate a family of children and lay a bit aside for the old age of himself and wife, on a salary that affords a bare existence, is simply to pull the props from under the house we live in. Cheap salaries only appeal to cheap men. Save a little on the salaries of the peace officers and lose largely in efficient service. That's the choice.

* * *

Generous rivalry in Broad street to see which business house can pile up the biggest pile of snow. At present the Nugget office and the National Hotel are leading. It takes a giraffe to see over the top of either pile.

* * *

A little girl, seven years old, slipped and fell as she left the school grounds. A boy about the same age stood by, and the girl lay where she fell and waited. "Why don't you help me up, like a gentleman?" inquired the girl. "You're as big as I am," answered the boy. A teacher lectured the boy on good manners. That girl knew her rights.

* * *

Two men were talking on the street the other day, while shovel men were busy divesting the roofs of business houses of their burden of snow. One man talked largely with his hands. He had just made a far flung gesture with his left when a shovelful of snow landed in it. For a moment all his organs of speech seemed paralyzed, then Mt. Vesuvius erupted, and if words could seer anybody on a cold day, the man on the roof would have been reduced to a cinder.

HIS HONOR NEEDS HELP

Senator R. R. Ingels, Mendocino county introduced a bill calling for drastic reductions in salaries of all California judges.

"Your bill's all right," said one of his colleagues, exxcept for one thing. It does not provide medical treatment for the judges when they hear about it."

Monumental Works

NEWS COMMENT

By Christian Andersen

Every week I have a good story on my mind to write. It is about the Hawkin's store in Alleghany. But somehow the muse took me away from the subject. This time I am going to say that Ray Hawkins and his helpers, Dick and Eva and the man who cuts the meat, (sorry, but his name slips me) are pretty fine folks. Their store is a credit to the town; they are all very accomodating. And—all is not "beer and skittles" with them, for up in Alleghany it really snows. It takes tractors, skis, webs, sleighs and such to keep goods coming into the warehouse and going out to their customers.

As we look out upon the snow in the streets and the great expanse of this beautiful but annoying natural phenonima, it occurs to us that truly the snow is one of nature's blessings.

Next summer when the streets are dry and dusty, this same snow will be supplying the moisture so necessary to agriculture, from whose fertile fields we all depend for our subsistence. True there is considerable destruction to our comfort but when all the reckoning is done our gain is so great that we can cheerfully dig ourselves out of the drifts.

One of our local merchants is now delivering groceries around town with a sled, two splendid grey horses draw the sled and most interesting of all is the tinkle of two sets of bells, we heard them coming in the distance and came memories of our younger days when we went with the rest of the young bloods of our town on those gorgeous moonlight bob-sled rides with the object of our puppy love at our side. Some of you know what we mean. It was some experience.

The scientists have recently found that woman's personality is the basis for their success or failure and that 85 per cent depends on the personality, with only 15 per cent attributed to brains. Perfectly simple—just watch the average mother, she has to have the 85 per cent also the 15 per cent and another 100 per cent of love to bring the family of children up to be good citizens.

It has been found that hogs averaging 200 to 250 pounds produces the most satisfactory meat for curing. The average man is probably not so interested in the weights as he is to bring home the bacon, even if a little over or under the ideal weight.

Something reminded me of those six concrete ships which were built by the U. S. during the war at a cost of one million each and then never touched the water, or were of any use to any one. That waste of money is equal to the recent bond issue for relief of the San San Francisco unemployed and it represents only a very small per cent of the money wasted during the world war. Somehow we did not seem to learn much from such experiences, which helps to account for the so called depression, but then why should officials, appointed or elected, and PAID BY THE TAXPAYERS pay any attention to this economy, just as long as the government treasuries are able to pay their own salaries.

There has been a lot of talk about that case of champagne that was put into the cornerstone of that old incinerator in San Francisco and it is very likely to sparkle in the glasses of officials, not in those of the workmen, who will tear the building down—Oh! Well.

FIND GOLD

Old prospector perfects sure method of locating gold and silver. Two years tests under every condition, both on top and underneath the ground has absolutely proven the efficacy of these detectors in every case. Old prospector says, "These will locate gold for you in 10 minutes where otherwise it might take a year without them. With so many prospecting these days, it pays to have these extra eyes that see underneath rocks and rivers and make the biggest finds. Hundreds of thousands of dollars in gold is available to ambitious miners who go after it intelligently and equipped with these gold finders." You can't go wrong by using a prospector's invention and if you don't like it we will refund your money. Send $1.50 for small size or $3 for the standard size and illustrated booklet.

INFLUENZA QUINSY DIPHTHERIA

DOCTOR LAUDS HERBS, DRUGS

Drugs and simple remedies handed down for generations and later discarded are now proving to be of great value to the medical profession.

This was revealed by Dr. Linn John Boyd, head of the department of pharmacology and homeopathy of the New York Homeopathy Medical College. Dr. Boyd came from New York to attend the sessions of the American College of Physicians, of which he is a fellow.

"We can observe certain results in the use of animals," Boyd said. "But the animals cannot tell their feelings. For th efiner shades in results we need the human."

In these lesser known and discarded drugs, he pointed out ,modern medical science is finding great value. HERBS USED BY THE CHINESE FOR CENTURIES AND THEN DISCARDED, TODAY ARE AGAIN BEING UNIVERSALLY USED.

BABYS TO COST $25.00

In the future, if you wish to adopt a baby, it will cost you $25. That is, if the plan outlined in the governor's budget is adopted. At the present it costs the state $50 to complete an adoption, and he would have the person adopting share half the cost. "If they can not afford a $25 fee they can't afford a baby in the family," the governor said.

Transporting the Sick

With good roads and modern, comfortable ambulances, it is often more practical to transfer invalids, even for long distances, by automobile rather than by rail. Our equipment and staff enable us to offer safe, easy transportation for the sick or injured over a radius of many hundreds of miles.

FRENCH CORRAL

FRENCH CORRAL, Jan. 24.,-The Storm King has reigned supreme today in this section. Rain, snow, and wind and bitter cold at that. One would hardly believe that such a fierce day could follow Monday's starlight night.

We were greatly surprised last Wednesday morning to look out on beautiful Whitman, when a snowstorm had softly stolen in during the early morn. About three inches fell here. It had nearly all melted away, but tonight the ground and every thing is white again.

The sick in our section are all recovering, but the children are not yet able to attend school.

The French Corral school has continued despite the stormy condition of the weather.

The High school bus has discontinued trips on account of storm and the school closing.

Joe Swazey and Lloyd Haslett had business in Nevada City last Wednesday.

Mr. Gant, the "Raleigh man' made a trip through this section last Wednesday. Mr. Gant now resides in Grass Valley.

W. P. Clerkin came up from Brown's Valley Friday. C. Browning accompanied him as far as French Corral.

Joe Swazey, Lloyd Haslett and Clyde Browning made a trip to Nevada City Friday evening. Swazey and Haslett returned that night and Browning remained in Nevada City.

Walter S. Wood and brother F. S. Wood were Friday visitors. Walter's friends seem to think he has grown several inches taller within the past week and no wonder, as he and his wife are now the proud parents of a little daughter. Dian, as she was named several months ago, arrived at 1 o'clock A. M. Jan 18th, when the stork called at the Jones Memorial Hospital in Grass Valley. Best wishes come from their many friends.

On account account of inclement weather Father O'Rielly did not hold services in Birchville Sunday. The 4th Sunday o fthe month being the regular Sunday fo rthat place. This reminds us of something which will not be out of place to state here, for with the changes that have taken place in the past years, it is certainly remarkable.

Ever since the old Armory of the Bridgeport Union Guards, a military Company of the North San Juan Ridge that was organized at the time o fthe Civil War was consecrated as a Catholic Church in 1867 or 68, the members have been given a continous service from our clergy through all the years. May this historical old boulding that was preserved from fire in July 1931 when surrounded by the terrible element, be long spared in the future years, for it has been used only in the service of God and country.

F. Reardon, of Sweetland, was a Sunday visitor.

The many friends of J. H. Dudley, who passed away at Yuba City since our last writing, share the grief of his family and extend to them deepest sympathy. He, and also his wife, are natives of the San Juan Ridge. Mr. Dudley was born and raised in Columbia Hill and Mrs. Dudley in Sweetland. Mrs. Dudley before her daughter of a pioneer family.

GOOD MATERIALS, BUT—

A contractor, testifying in the Rolph investigation, complained because state architects demanded the highest class materials in a state building, thus increasing its price by $40,000. "It showed the state had a champagne appetite and a beer income," said Senator Inman.

CAMPTONVILLE

CAMPTONVILLE, Jan. 22.—Fred Schwartz left Friday for Nevada City and other places on a weeks visit.

Miss Lola W. Labadie left Friday for her home at Browns Valley after several days visit here with relatives at the Hotel Francis.

W. H. Cartwright of Grass Valley passed through Thursday from Sacramento enroute to the upper country with a load of produce.

Si. Perkins of Grass Valley was in town Friday on a short business visit.

Mrs. Acton M. Cleveland motored to Marysville Friday on a brief visit.

William Groves arrived Friday from Auburn to spend the week end visiting his mother and aunts.

W. D. Vanderhoff of Sacramento was in town Wednesday on a short business visit.

Warren Pauly and brother Erle Pauly motored to Pike City Tuesday on a short visit.

W. J. Labadie of Browns Valley was in town Tuesday on a short visit to relatives.

The monthly report of weather observer Elmer S. R. Hall at the P. G. & E. Mill of this section shows a monthly rainfall for December amounting to 5.38 inches, total snow fall 21 inches, with a maximum temperature of the month on the 4th., at 68 degrees with a minimum of 8 degrees on the 12th. Total rainfall for the season 7.41 in. The total rainfall indicates a very low recording, very far below the average. A heavy snow fell in this section Wednesday with indication for more much needed precipitation.

CAMPTONVILLE, Jan. 26.—Levi W. Turner and Byron Stewart made a trip to Smartsville a few days ago with a load of furniture.

Mr. and Mrs. Fred J. Joubert motored to Nevada City Tuesday on a short business visit.

Dr. Carl C. Stutton of Downieville was in town on professional business Tuesday.

E. A. Boehme of Marysville was in town Wednesday, bringing through the mail by way of Nevada City.

Edwin Godfrey of Pike City was in town Tuesday on a short visit.

The Pike City mail has been carried for several days on horseback, and although the Nevada City mail is still being carried on motor car, it is being done so only because the highway crew endeavors to keep the snow scraped off the highway, and the traveling is very difficult at that. The morning down mail which usually leaves here at 7:30 did not get away Wednesday morning until afternoon. The freight stage is having difficulty also. So far, regardless of the slight delay, the service has been good, with no reason for any complaint.

No Traffic Laws Are Broken in Camptonville

CAMPTONVILLE, Jan 26. With over three feet of snow covering the ground ,and indications of more coming, this section is being visited with one of the heaviest snow storms in several years. The old time habit of shoveling is in vogue, and most of the buildings are being freed from their heavy laden roofs. Automobiles are content to remain in their sheds, and no one is being brought into court for violation of the traffic laws.

For the first time in several years, the Marysville mail left Wednesday morning by way of a mule; the heavy snow between here and Dobbins being too much for a car. The mail came in from that place by way of Nevada City.

HIGH SCHOOL

Continued from page one

Starting out with an awful slump at the start of the season, the A team suddenly snapped out of it after dropping the first league game to Placer high school of Auburn. They surprised even their most ardent supporters and played a brand of basketball that would have possibly won the championship of the league for them until last week at Roseville. Not only were the local boys way off on their playing, but the Roseville team played what was perhaps their best game of the year. Result—36 to 17 disaster.

Although keenly disappointed with the showing, Coach Barron hopes that the boys have gotten the last bit of slump out of their system. Although school has been dismissed for this week, basketball practice has been going on as usual and some of the boys are getting "hot" as the Folsom game approaches.

Elmer Oates, forward, is back on the job after being laid up for some time with a bad boil back of his knee. His floor work and team play has been good this week and he does not show ill effects from his layoff.

Del Schiffner, another forward, will not make the trip because of a badly sprained ankle. To offset this disadvantage, Tuccolini has been shifted from the B team up to the A team. Pierce and Chapman have also hit their stride again this week and the way they have been slamming the old apple around bodes no good for Folsom tonight.

Mrs. Laura Hardenbrook of Grass Valley was a Nevada City visitor on business yesterday afternoon.

LOCAL HAPPENINGS

Dal Moffatt of Birchville was in town yesterday. He says that it has snowed but a few inches out that way.

Two baby boys were born to residents of this city this week. She gool old stork cares nothing about snow.

Miss Ida Casey and her sister-in-law Mrs. Ann Morman, both of this city, motored on a pleasure trip to Sacramento Tuesday.

Al Kelliher was forced to walk both ways Wednesday when he came to town from the Mayflower mine. An automobile hasn't got a chance in that district these days.

Mr. Joseph Tredenick of Town Talk was in town yesterday. He says that snow has drifted to a depth of 7 and 8 feet in places there but that on the level it averages about three-and-one-half feet deep.

Miss Ann Williams of this city, after being laid up for over a week with a severe case of the flu, was able to be down town late yesterday afternoon.

Travel out the Willow Valley road has been practically at a standstill this week. Walking is in vogue and the Carl J. Tobiassen family has been using a pair of horses and a sled.

Sargent Huson, who was injured last Sunday when his car overturned near the Five Mile House, is recovered sufficiently from his injuries to be removed from the Nevada City Sanitarium to his home.

Mrs. Elsie Willoughby, former publisher o the Nevada City Nugget, has received a letter from Moscow, Russia, requesting her to send a sample copy of the California Mining Journal, to be placed on file in an exhibit of such periodicals.

Kimball Walted Anderson, the 15 year old son of Mrs. James S. Erway of Nevada City, left Wednesday morning on the bus for San Francisco, where he will visit for an undetermined period, his maternal grandmother, Mrs. Julia Valentine.

Mrs. Valentine recently spent one month at the Erway home on Pine street of this city.

A shed in the rear of George Dulac's home on Main street of this city proved unequal to the strain of carrying the weight of recent snows. With a resounding crash the roof gave way early Wednesday morning. Dulac used the shed for storing wood and other odds and ends.

Friends have received cards from the Eddy Leongs who left here early in December announcing their safe arrival in Hongkong, China on December 26th. They expect to return to this city eary in July.

The three boys who went through Heschman diggings Tuesday afternoon, came out without a stitch of dry clothing on them. The best time to try anything like that is in the good old summer time.

Mr. S. B. Lusk's mother who has been living in Sacramento, died last Sunday. She was 97 years o age. Mr. Lusk, whose home is near Goodyear Bar went to Sacramento to attend the funeral. Details of which are lacking at the moment of going to press.

Daniel M. Ungaro of this city is one of the 100 varsity track and field athletes who are working out daily under Brutus Hamilton, University of California Cinder Coach, as the Golden Bears prepare for an active season.

Hans Hanson, of the Holbrook hotel in Grass Valley, was taken to the county hospital in this city Tuesday morning about 11 o'clock with a bad case of pneumonia. His condition is quite serious and he has been placed under the care of Doctor A. H. Tickell.

Some stealing of gasoline and accesories from stalled automobiles in the snow has been going on during the past week. One person parked his car at the intersection of West Broad and East Broad streets with nine gallons of gas. Returning a couple of hours later, he found that some thieves had drained his tank to the last drop.

Through E. W. Rowe, Studebaker distributor for this section, W. R. Jefford & Son have just received a new President 8 cylinder ambulance. Delivery was taken at South Bend, Indiana, where the factory is located and the ambulance was driven across the continent in record time of 6 days. The driver, Howard Edwards, brother-in-law of L. R. Jefford, has joined the staff of the mortuary firm.

After spending two weeks in Grass Valley, Clarence Mayer stopped in Nevada City on his way back to French Corral yesterday afternoon. Mayer, with Cal Linnell, is working on the Harrison French mine in French Corral. The mine has recently been taken over by T. M. Darnell, representing the A. A. Wise interests of Oakland. Meyer represents his father, Thomas Meyer, who owns the mine while Linnell is at the mine in the interests of Knights, Podda and Wright, from whom the lease and option to buy was taken over by the new company.

Osteopathic Physician. Opens Practice in G. V.

Having been told by the state medical board that Nevada county was the most likely place to open an office in the state of California, Dr. E. C. Skinner, formerly a practising osteopathic physician in the state of Michigan, has this week opened osteopathic offices in Grass Valley.

Dr. Skinner is a graduate of the S. S. Still College of Osteopathy and last week passed his California state board examination in order to practise his profession in this state.

The newcomer has looked the entire California field over and decided Nevada county to be the best place to locate in. Los Angeles was crossed off the list when Dr. Skinner found that 1000 osteopaths were practising in that county and that 470 had their offices in the city of Los Angeles proper. Many of them are leaving because of business conditions in the southern city.

Dr. Skinner's office will be located at 413 West Main street, a block west of the Bret Harte Inn.

WEEK'S SUMMARY IN LEGISLATURE

By MELVIN LORD
U. P. Press Staff Correspondent

SACRAMENTO, Cal., Jan 26-U.P. In the future coutny boards of supervisors are likely to have more to say concerning school finances than they have had in the past.

This is the trend of school support measures so far in the state legislature. The only bill to receive committee recommendation was that of Senator R. R. Engels,, Potter Valley, making $60 and $30 maximum instead of the minimum amount to be raised per average daily attendance in the high and elementary schools.

The bill also provides the board may raise school funds "at any time" —a provision not included in the present law.

FACT FINDING

The senate fact- finding committee has indicated it plans to offer a budget not entirely in agreement with Governor Rolph's budget. The first result of hearings conducted by the committee was the introduction of bills calling for drastic action in reducing salaries of all superior judges and justices of the appellate and supreme courts. The committee termed the judiciary the most highly paid department in the state government.

No sooner had Senator J. M. Inman, of Sacramento, announced that his special investigation committee had adjourned until February 6th, than the asembly passed a resolution calling for an inquiry into the administration of the bovine tuberculosis indemnity fund by the state department of agriculture.

GALLOWS ANTAGONISTS

The biennial campaign to abolish the gallows in California opened before the assembly with the introduction of an anti-hanging bill that carrys the names of 37 co-authors. The bill would substitute life imprisonment without parole for the death sentence. To offset this plan, Senator Inman is preparing a bill which would permit juries to recommend "life sentence without parole." Capital punishment would be retained for extreme cases, he said.

Lawmakers favoring the modification or repeal of the 18th amendment are claiming the 1933 legislature is thoroughly wet. They base their claim on the fact the assembly voted 54 to 21 in favor of a resolution memorializing congress to submit the question of repeal of the 18th to the people in state conventons. It also approved, 56 to 21, a similar resolution memorializing congress to legalize "naturally fermented wines". The senate passed the first resolution by a vote of 38 to 8, but has not yet considered the latter.

WORK STARTS ON TOM HALL MINE

Continued From Page Two

its value per ounce runs well over $19. On the same channel and near the Hall property, bed rock gold nuggets have been taken that run over $200. In the old days of hydraulic mining, millions were taken from the San Juan ridge country, both above and below the Hall property, from the same channel.

To solve the water situation, Moffat and the DeSmidts have leased the Buckeye mine nearby from the Fogarty brothers. There they have built a reservoir in which they will be able to store enough water during the winter and spring months to insure sluicing work for some months.

From the Nickols Slide Gravel Mining Company, recently shut down, the new operators of the Hall mine have purchased all of the mining equipment that was installed at the Nickols Slide mine about a mile below North San Juan on the fork of the Yuba River. It took five days to transfer the material from one mine to the other, but a few miles apart. From this material; a 7 and one-half inch Byron-Jackson two stage centrifugal pump will play an important part on the Hall mine. It will be used to pump water from the reservoir, through a cut, to wash the gravel. This method has been tried out with the small amount of water obtained so far this year and found to be successful. The men expect to average 50 cubic yards per day with sufficient water.

Since they established themselves on the Hall mine, Moffatt and the DeSmidts have built two houses, moved their families from the bay district up here, cut new sluice ways through cemented gravel, build sluice boxes, installed their equipment and broken down about 2,000 yards of gravel ready to sliuce. They are now ready to start mining operations as soon as the water situation permits.

Woman's Improvement Club to Meet Feb. 13

The Woman's Civic Improvement club postponed their meeting, scheduled for January 13 until February 13. The program arranged for that event will be presented then. This will be the annual hijinks in which each member will do some special stunt for entertainment.

Chaivari for Newly Wedded Couple

Mr. and Mrs. Foster Buffington, whose nuptials were celebrated on New Years Day, were recipients of a big charivari last Saturday, when a party of twenty intimate friends opened the evening's cacaphonous concert with a blast of dynamite. Following the serenade the merry troubadours were invited into the spacious home of the happy couple, where a set of China and other useful gifts were presented to the bride. Cards and dancing whiled away the happy evening and just before departure in the wee sma' hours, delicious refreshments were served. The Buffingtons reside about one mile north west of Nevada City on the Downieville road.

Levi Bullis Johnson Crosses Great Divide

Funeral services were held Wednesday under direction of W. R. Jefford & Son for Levi Bullis Johnson, who died January 22. The deceased passed away in Chico. He leaves a wife, Mrs. Sarah Jane Johnson. The Rev. E. O. Chapel conducted the service. Interment was in Union cemetery.

County Hospital Short Of Water for Week

The Nevada County Hospital reported yesterday that just enough water is seeping from the banks along their little ditch leading from the Snow Mountain ditch to supply them with water for cooking purposes and to keep their hot water system in operation. Otherwise they have been without water for over a week, but are hoping for the best.
